Divya Dave

COMPUTER ENGINEER

I'm a quick learner and I'm passionate about learning new technologies and a highly skilled computer engineer with a passion for innovation and a drive to deliver exceptional results Seeking a challenging position in a dynamic organization where I can utilize my technical expertise and problem-solving skills to design and develop cutting-edge software and hardware solutions.

ACADEMIC HISTORY

DIPLOMA IN COMPUTER ENGINEERING

SAL INSTITUTE (SIDS)

Sep, 2022 - Apr, 2025 | India

Courses

- Computer Engineering

Bachelors of Engineering

Sal College Of Engineering

Jul, 2025 - Persuing | India

Courses

- Computer Engineering

PERSONAL PROJECTS

E-Book Store

Full-Stack Developer

Engineered a dynamic e-commerce web application for purchasing digital books. Designed a responsive user interface with a searchable catalog and implemented a fully functional shopping cart with real-time price calculation. Built a secure backend to handle product listings and simulated user transactions.

Apr, 2026

JARVIS - Personal Voice Assistant

Solo Developer

Developed a custom, from-scratch voice assistant using Python to automate daily system tasks and answer user queries. Implemented speech recognition and text-to-speech synthesis to process voice commands in real time. Integrated third-party APIs for live data retrieval and structured the application modularly using Object-Oriented Programming (OOP) to allow for scalable skill additions.

Jul, 2026

Laser security System

Hardware & Embedded Developer

Designed and prototyped an IoT-based laser tripwire security system to detect unauthorized intrusions. Programmed a microcontroller (Arduino/ESP32) to trigger an immediate audible alarm when the laser beam is interrupted. Implemented hardware-software integration using light sensors and optimized the circuit for reliable, low-latency detection.
